

ERCHITECTURE INC

About Us

We are a team of architects, interior designers and digital artists based out of Trichur, Kerala who are proficient in the art of photorealistic architectural visualizations. We specialize in transforming your projects into inspirational images and videos. We aim to revolutionize the standard of 3D rendering services into a more sophisticated aesthetic, technical support to architects, interior designers and real estate developer companies. Completely focused on one specific module we are able to deliver global standard service for your requirements. We consider ourselves more than simple visualizers. We offer aesthetic design render

ERCHITECTURE INC

Vision

To grow into one of the finest architectural design outsourcing firms in the country with Global presence by 2025

Mission

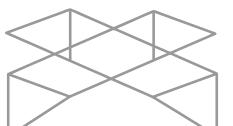

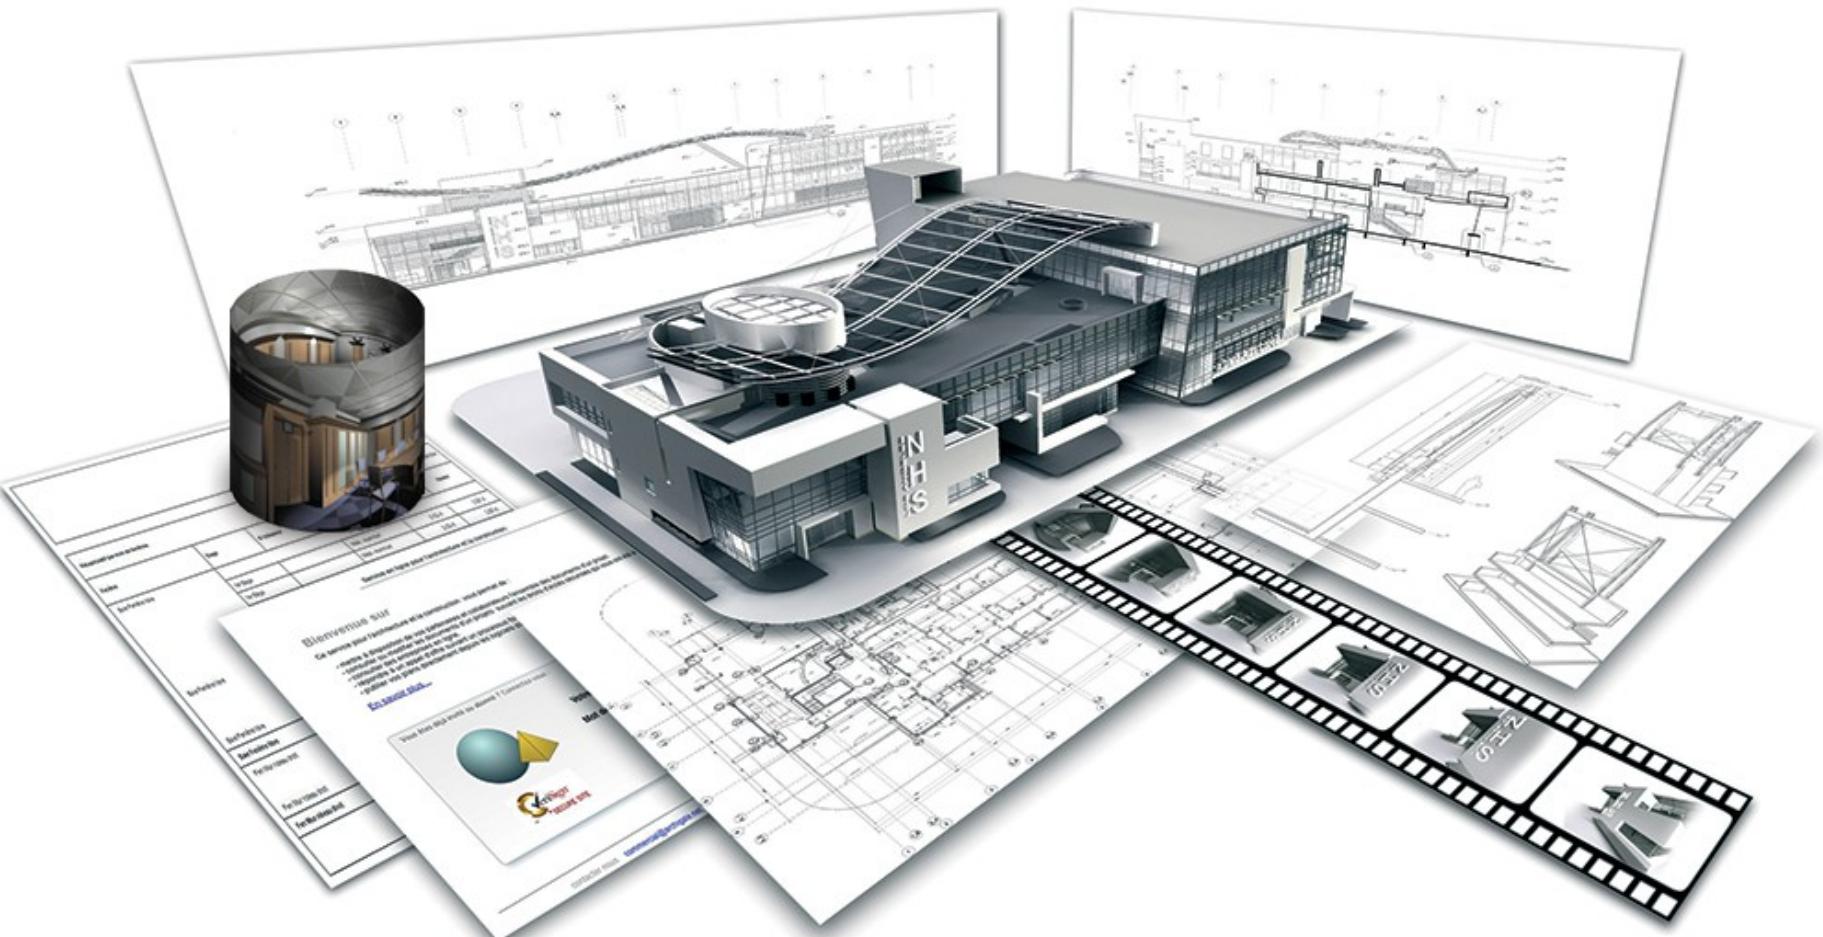

To provide every client with a superior and demonstrated value proposition while keeping client focus at the top of everything we do every day.

ARCHITECTURE INC

What we do? Technical Skills Outsourced

We create images that can communicate. Our top priority is to fulfil and exceed client specifications and ensure time-bound delivery of projects, regardless of design or drawing complexity. With our service outsourcing component, we bring Flexibility, Frugality, and Cost efficiency keeping the result par to global standards. We have the passion and the ability to focus on even the smaller details and will transform your inspiration into realistic and high-quality renderings.

ERCHITECTURE INC

Our Strengths

Diversified Team

Thanks to our distinct team between architects, interior designers and artists, we are capable to manage small to large scale projects keeping deliverables always optimal.

A dedicated Project Coordinator always available

Only one referee, selected among our senior staff will be assigned to coordinate the team of 3D artists working on your project. A direct, fast and always available support

Real-time updates on the project

We use every tool available to always keep our clients updated with the stages of the project, the possibility to book anytime a ZOOM, Skype, WhatsApp call for a revision meeting with screens ON.

Clear time line and fees

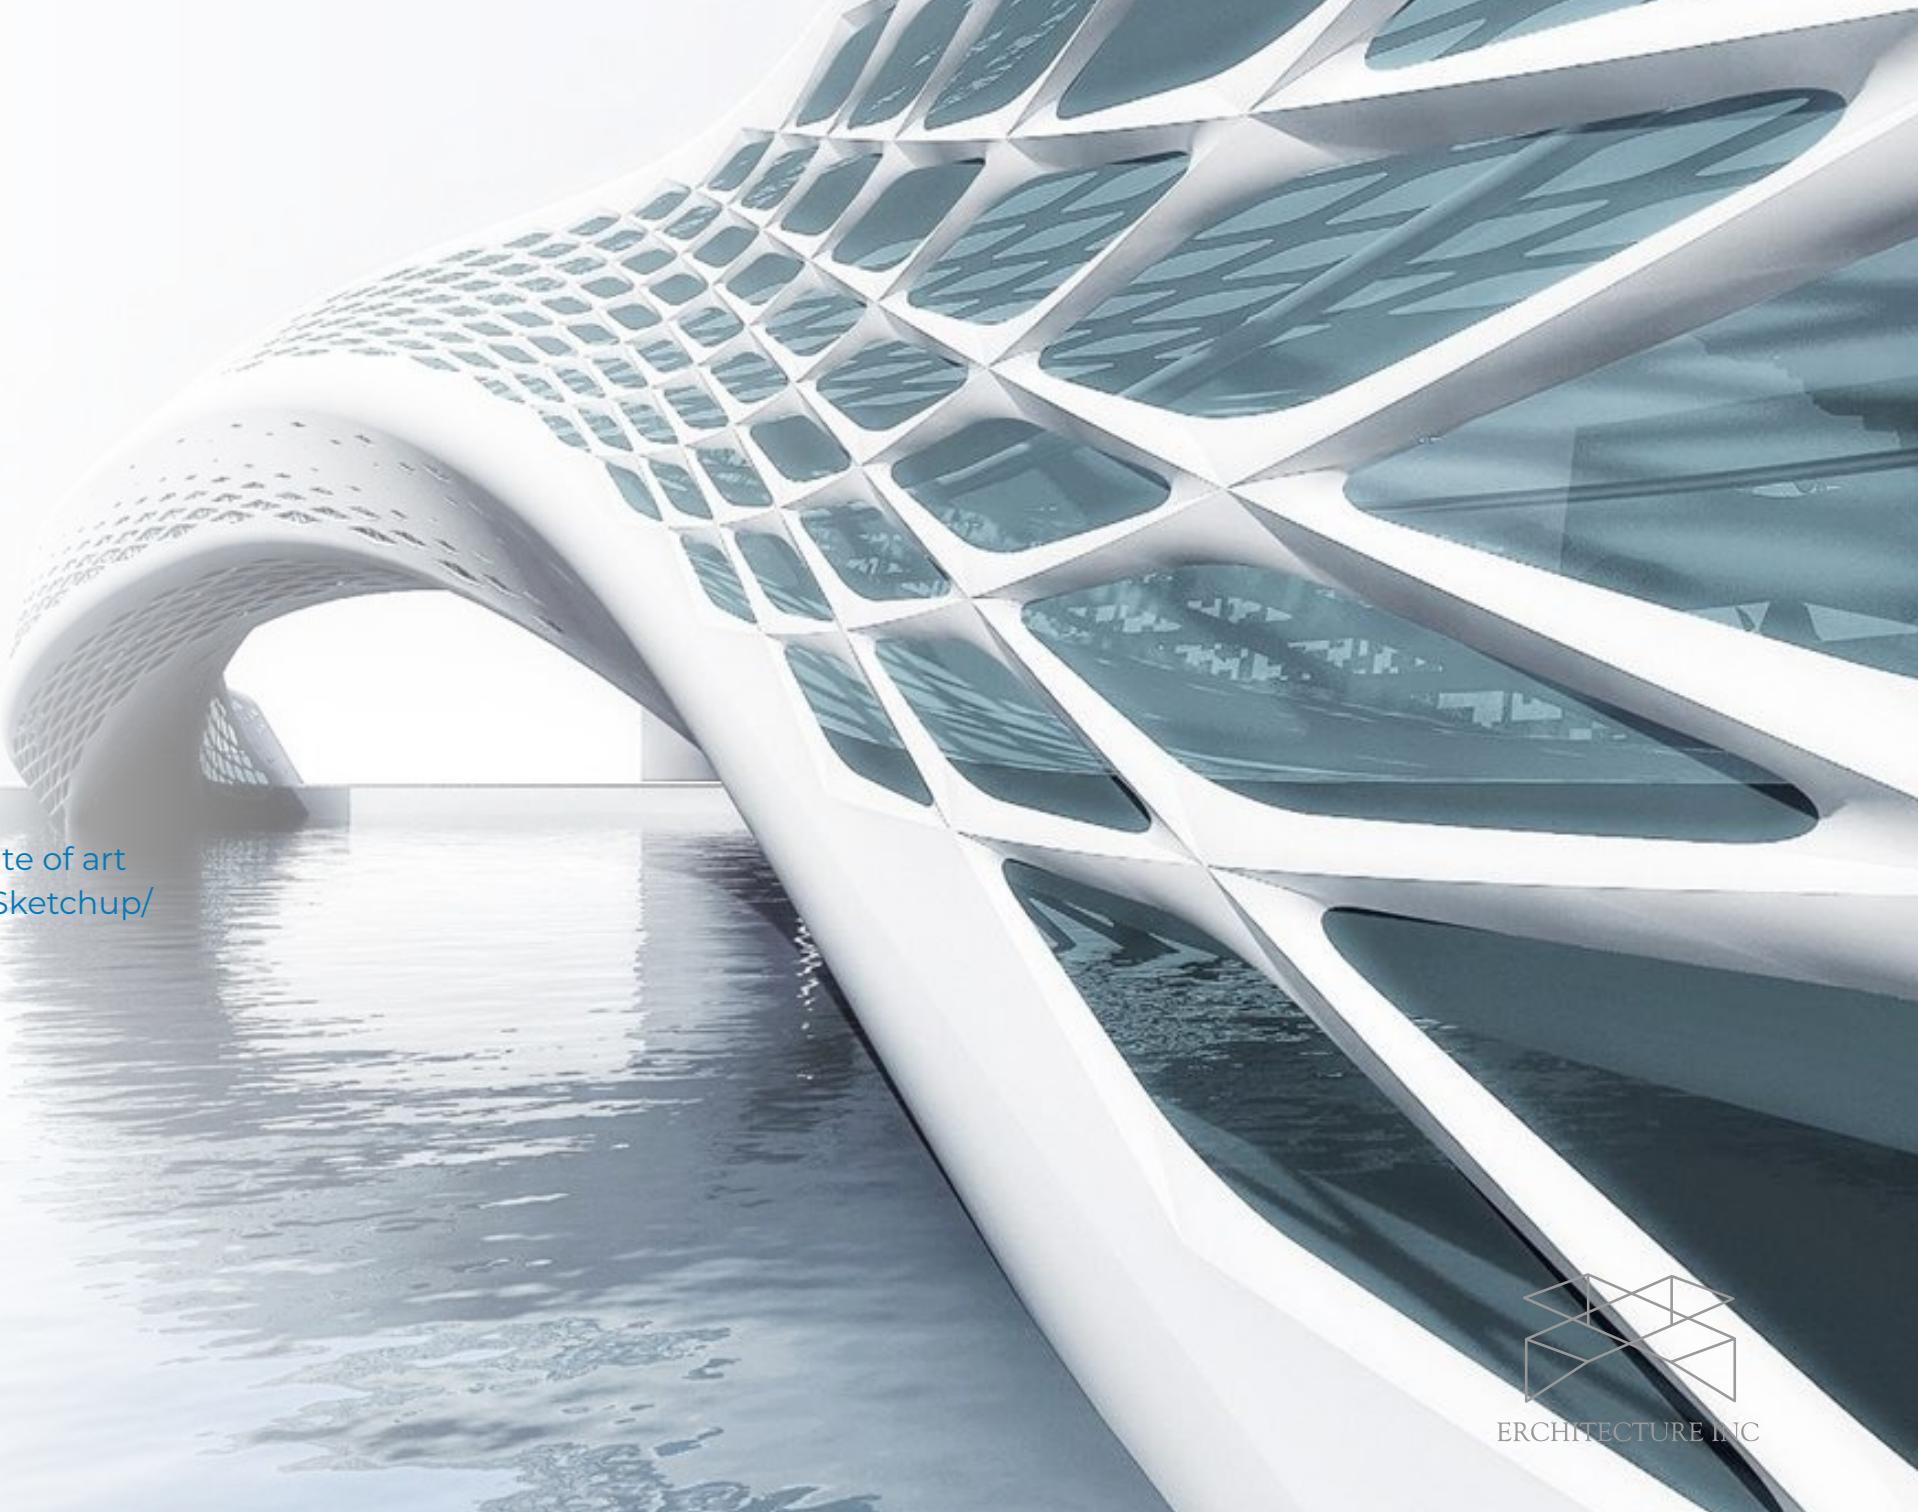

To maintain an in-house designer, we will provide the same with one third of the expense, by providing a dedicated employee/team under our payroll. Each aspect of the project scope of work from the KICKOFF to the revision stages and time lines will be transparently defined from the start.

ARCHITECTURE INC
